

Filecast

BIG files, efficient delivery

Need to push a large program or other big file to users or syndicators? Filecast works on the VideoShip iNet system and can handle the big hi-res file the others can't.

Filecast Features

- ✓ Proven acceleration for faster uploads & downloads
- ✓ No upload limits
- ✓ Scheduled delivery to target sites
- ✓ Easy administration and 24/7 access to support team
- ✓ Realtime progress reporting
- ✓ Share via iNet network or email

VideoShip is an employee-owned corporation established in 2004 by veterans of the data, broadcast, and cable industries. We use our decades of experience to design, develop, and deliver innovative and impactful solutions. We are driven to focus on each customer and leverage the latest technology to help them succeed.
